with the Department of Enterprise Services

DESCHUTES ESTUARY Restoration Project

Upcoming public review period

In October, Ecology will release a State Environmental Policy Act (SEPA) Draft Supplemental Environmental Impact Statement (Draft SEIS) for the Deschutes Estuary Restoration Project.

The Draft SEIS does not review actions, alternatives, or impacts that were already analyzed in the 2022 Final Capitol Lake – Deschutes Estuary Long-Term Management Project EIS. Instead, the Draft SEIS will provide environmental review of design elements that have been updated or added to estuary restoration since the planning-level design was analyzed in the 2022 EIS. These design updates were determined to potentially have new or increased environmental impacts, requiring a supplemental environmental analysis under state law.

The SEPA public comment period will be open for 30 days after the Draft SEIS is published, and two public hearings will be held during the comment period. More information will be provided on publication day.

Learn more about the project ahead of the public review period

New to the project? Check out the project website to learn more about the benefits of a restored estuary, understand the project history, and see conceptual design of the estuary restoration.
